

CIRCULAR

TYPE & NUMBER ELEXON Circular – EL02803

Date 18 April 2018
To BSC Parties
From BSC Operations
Purpose For information

BMRS planned downtime today, Wednesday 18 April 2018

What is happening?

There will be a period of planned downtime for the Balancing Mechanism Reporting Service (BMRS) between **17:00 (BST) and 17:30 (BST) today, Wednesday 18 April 2018**. The planned downtime is required to resolve an issue relating to the processing of System Warnings on BMRS.

How will I be impacted?

During this planned downtime there will be a delay in receiving, loading and publishing data on the BMRS website as well as via the API and Data Push services. In addition users of the TIBCO service will see a delay in the publishing of TIBCO messages via their High Grade Communications Lines.

During this planned downtime there will be a delay in the data sent to [ENTSO-E Transparency Platform](#) from BMRS.

Please note that you can continue to submit REMIT data via the ELEXON Portal during this planned downtime, where the data will be accepted, queued and sent in sequence, however these files will be delayed by this planned downtime.

Is there anything else I need to know?
